REDUCED TRAFFIC ON BARAGA AVENUE FROM MCCLELLAN TO SEVENTH

This is a reminder that the Duke Life Point Hospital construction project at 850 W. Baraga Ave. (between McClellan Avenue and Seventh Street) is under way. During the construction, the section of Baraga Avenue adjacent to the project will be in rugged condition and experience increased construction traffic. A portion of the road has been turned to gravel. Reduced speeds are recommended for motorists using this section of road. While all businesses remain open and accessible from either direction, it is recommended that thru traffic find alternate routes until the construction is complete.
